# Revolving Loan Fund Guidelines

## PROGRAM INTRODUCTION

The City of Eau Claire's Revolving Loan Fund (RLF) is a source of loan funds for commercial and industrial projects. The program serves the Economic Development Division mission by supporting the following goals and objectives in the City of Eau Claire:

- 1) To add new well-paying jobs.
- 2) To grow the tax base.
- 3) To facilitate expansions and support local businesses.
- 4) To recruit outside businesses to locate in the City of Eau Claire.
- 5) To increase the quality of life and promote a diverse economy.

## FINANCE TERMS AND CONDITIONS

### *Loan Amounts*

The minimum loan will be \$10,000 and the maximum will be \$100,000.

Unless special approval is given by the Loan Administration Board, lending institution participation is required for capital projects. Direct loans may be made up to 100% of the project for working capital needs.

### *Interest Rate*

The interest rate shall be a 4% fixed annual rate. The Finance Director will review the program's interest rate annually as compared to market conditions and recommend changes, if any, to the Loan Administration Board, who shall have the authority to adjust the rate accordingly.

### *Collateral*

The City will record a lien against the collateral pledged for the loan. The collateral pledged must be sufficient to cover the value of the loan and be related to the business activities covered by the loan or other real property. Unlimited business and personal guarantees will also be required of all owners with a 20% or greater ownership interest in the business.

### *Terms*

The terms of the loan will vary depending on the collateral and uses of funds. Short terms will be encouraged. The participating financial institution can be relied upon to make term recommendations. Typical loan terms are:

- 1) Ten (10) years for real estate purchase or renovation.
- 2) Three (3) to Ten (10) years for capital equipment, depending on life of the asset.
- 3) Three (3) to Five (5) years for working capital.

If it is determined by the Loan Administration Board that deferral of the principal payment for a period not to exceed one (1) year would likely lead to the success of the project, and that upon review of updated financial information filed by the borrower that loan collateral remains a viable and likely source of recovery in case of default, deferral may be allowed as approved by the Board.
